# Uni

## *Student Virtual Assistant*

Mariam Yekini

Morgan Aldore

John Nweke

What is Uni?

- A virtual assistant for students in university/college
- It will be built primarily as a Desktop app that will run in the background

Motivation

Why do we want to do this?

- University/college is a very stressful experience and sometimes may become too hard to handle alone
- Provide students with reminders regarding meetings, homework, deadlines, etc.
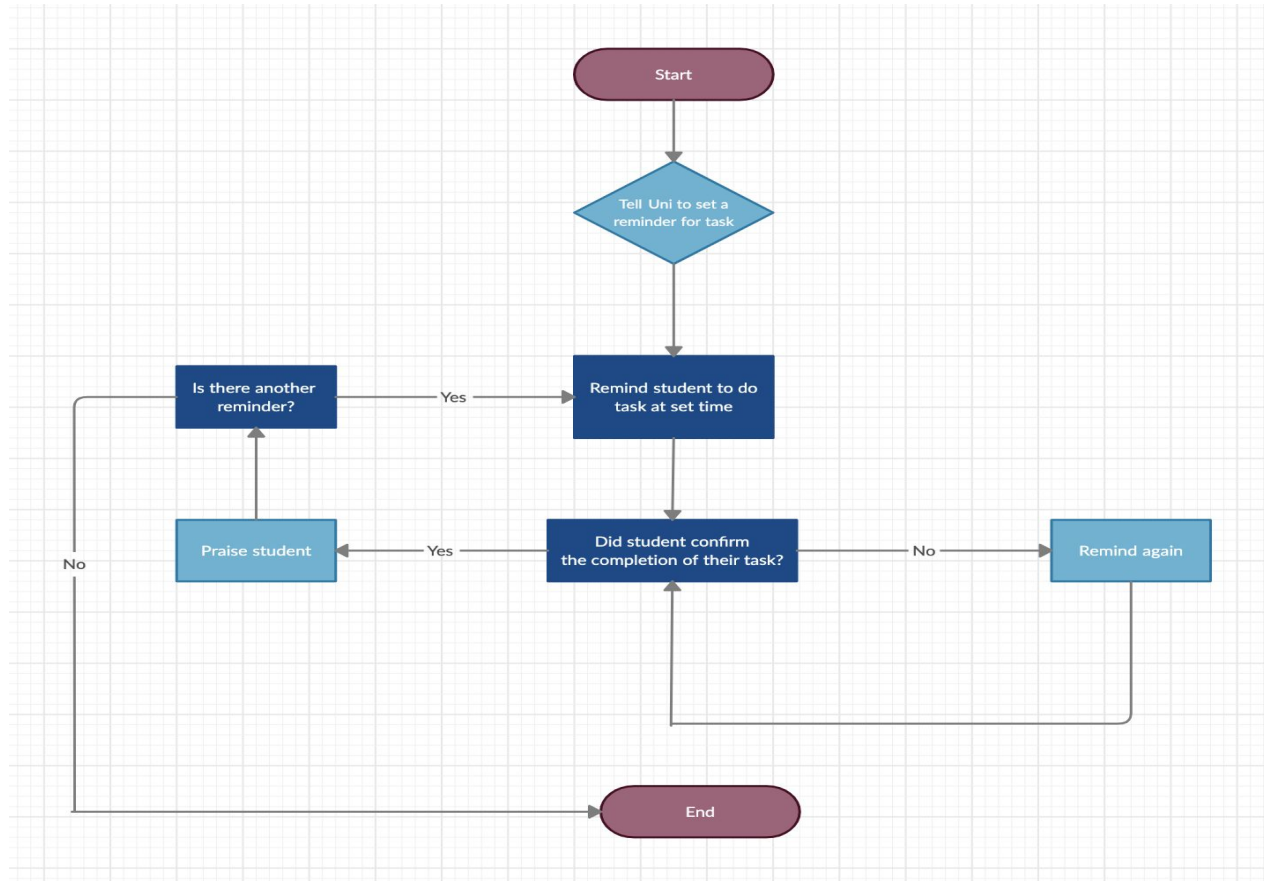

Purpose: Reduce the burdens of having to keep track of basic day-to-day information, school work, meetings, and extracurriculars on your own

➡ **Who**

- Primary focus: students

- Other individuals with busy schedules

# Flowchart

How do we plan to do this?

Evaluation

How will we know if we succeed?

On time with delivering response (lag-free)

Positive feedback from users about accurate output and helpfulness.

Time-tracking accuracy

Benefits Broader impacts

→ Increased productivity
→ Prevents overbooking
→ Allows for a more manageable workload
→ Decreased worries surrounding missing deadlines
